

PRELIMINARY PROVISIONS

GENERAL RULES

A. General rules for the interpretation of the Combined Nomenclature

Classification of goods in the Combined Nomenclature shall be governed by the following principles:

1. The titles of sections, chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative section or chapter notes and, provided such headings or notes do not otherwise require, according to the following provisions.
2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as presented, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), presented unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.
3. When, by application of rule 2(b) or for any other reason, goods are prima facie classifiable under two or more headings, classification shall be effected as follows:
 - (a) the heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods;
 - (b) mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, in so far as this criterion is applicable;
 - (c) when goods cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration
4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred to therein:
 - (a) camera cases, musical instrument cases, gun cases, drawing-instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and presented with the articles for which they are

intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;

(b) subject to the provisions of rule 5(a), packing materials and packing containers ⁽¹⁾ presented with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.

6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, mutatis mutandis, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section and chapter notes also apply, unless the context requires otherwise.

B. General rules concerning duties

1. The customs duties applicable to imported goods originating in countries which are Contracting Parties to the General Agreement on Tariffs and Trade or with which the European Union has concluded agreements containing the most-favoured-nation tariff clause shall be the conventional duties shown in column 3 of the schedule of duties. Unless the context requires otherwise, these conventional duties are applicable to goods, other than those referred to above, imported from any third country.

The conventional rates of duty reproduced in column 3 are applicable from 1 January 2024.

When autonomous rates of duty are lower than the conventional rates of duty, the autonomous duties, shown by means of a footnote, are applicable.

2. Paragraph 1 shall not apply where special autonomous customs duties are provided for in respect of goods originating in certain countries or where preferential customs duties are applicable in pursuance of agreements.
3. Paragraphs 1 and 2 shall not preclude the Member States from applying customs duties other than those of the Common Customs Tariff where the application of such other duties is justified by the law of the European Union.
4. The duties expressed as percentage rates are ad valorem duties.
5. The symbol 'EA' indicates that the goods concerned are chargeable with an 'agricultural component' fixed in accordance with Annex 1.
6. The symbol 'AD S/Z' or 'AD F/M' in Chapters 17 to 19 indicates that the maximum rate of duty consists of an ad valorem duty plus an additional duty for certain forms of sugar or for flour. This additional duty is fixed in accordance with the provisions of Annex

(1) The terms 'packing materials' and 'packing containers' mean any external or internal containers, holders, wrappings or supports other than transport devices (for example, transport containers), tarpaulins, tackle or ancillary transport equipment. The term 'packing containers' does not cover the containers referred to in general rule 5(a).

7. In Chapter 22, the symbol '€ /% vol/hl' means that a specific duty, expressed in euro, is to be calculated for each percentage volume of alcohol per hectolitre. Thus, a beverage having an alcohol content by volume of 40 % is to be charged as follows:

— '€ 1/% vol/hl' = € 1 × 40, giving a duty of € 40 per hectolitre, or

— '€ 1/% vol/hl + € 5/hl' = € 1 × 40 plus € 5, giving a duty of € 45 per hectolitre.

Where, in addition, a minimum (MIN) value is shown, for example '€ 1,6/% vol/hl MIN € 9/hl', it means that the duty, calculated on the basis of the above rule, is to be compared with the minimum duty, for example '€ 9/hl', and the higher of the two is to be applied

8. Where, in Chapters 17 to 19 and 21 a maximum (MAX) value is shown, for example '(9 + EA) MAX (24,2 + AD S/Z)', it means that the duty calculated by the addition of 9 % and the 'agricultural component' (EA) may not exceed the sum of 24,2 % and the additional duty on sugar ('AD S/Z').

C. General rules applicable both to nomenclature and to duties

1. Unless provided otherwise, the provisions relating to customs value shall be applied to determine, in addition to the value for the assessment of ad valorem customs duties, the values by reference to which the scope of certain headings or subheadings is defined.
2. The dutiable weight, in the case of goods chargeable by weight, and the weights by reference to which the scope of certain headings or subheadings is defined, shall be taken to be:
 - (a) in the case of a reference to 'gross weight', the aggregate weight of the goods and of all the packing materials and packing containers;
 - (b) in the case of a reference to 'net weight' or simply to 'weight' without qualification, the weight of the goods themselves without packing materials and packing containers of any kind.
3. The equivalent in national currencies of the euro, for Member States other than participating Member States as defined in Council Regulation (EC) No 974/98 ⁽¹⁾ (hereafter called 'non-participating Member States'), shall be fixed in accordance with Article 53 of Regulation (EU) No 952/2013 ⁽²⁾ of the European Parliament and of the Council.
4. Goods eligible for favourable tariff treatment by reason of their end-use:

Where the import duty applicable under the end-use arrangements to goods for a specific end-use is not lower than that which would otherwise be applicable to the goods, the said goods shall be classified in the code referring to the end-use and Article 254 of Regulation (EU) No 952/2013 shall not apply.

(1) OJ L 139, 11.5.1998, p. 1.

(2) OJ L 269, 10.10.2013, p. 1.

SPECIAL PROVISIONS

A. Goods for certain categories of ships, boats and other vessels and for drilling or production platforms

Those goods such as motor fuel, lubricants and gas, which are necessary for the operation of machines and apparatus which do not affect permanently, and are not integral parts of the platforms and which are used on board for the construction, repair, maintenance, conversion or equipping of these platforms are regarded also as being used for incorporation in drilling or production platforms;

(b) tubes, pipes, cables and their connection pieces, linking these drilling or production platforms to the mainland.

C. Pharmaceutical products

1. Relief from customs duty is provided for pharmaceutical products of the following categories:

- (1) pharmaceutical substances which are covered by the CAS RN (chemical abstracts service registry numbers) and the international non-proprietary names (INNs) listed in Annex 3;
- (2) salts, esters and hydrates of INNs which are described by combining INNs of Annex 3 with prefixes or suffixes of Annex 4, provided such products are classifiable in the same 6-digit HS-subheadings as the relevant INN;
- (3) salts, esters and hydrates of INNs which are listed in Annex 5 and which are not classifiable in the same 6-digit HS-subheadings as the corresponding INNs;
- (4) pharmaceutical intermediates, i.e. compounds of a kind used in the manufacture of finished pharmaceutical products which are covered by the CAS RN and the chemical names, listed in Annex 6.

2. Special cases:

- (1) INNs cover only those substances described in the lists of recommended and proposed INNs published by the World Health Organisation (WHO). Where the number of substances covered by an INN is less than that covered by the CAS RN, only those substances covered by the INN will be subject to duty-free treatment;
- (2) where a product of Annex 3 or Annex 6 is identified by a CAS RN corresponding to a specific isomer, only that isomer may qualify for duty-free treatment;
- (3) double derivatives (salts, esters and hydrates) of INNs identified by a combination of an INN of Annex 3 with a prefix or suffix of Annex 4 qualify for duty-free treatment, provided they are classifiable in the same 6-digit HS-subheading as the relevant INN:
example: alanine methyl ester, hydrochloride;
- (4) where an INN of Annex 3 is a salt (or an ester), no other salt (or ester) of the acid corresponding to the INN may qualify for duty-free treatment:
example: oxprenolate potassium (INN): duty-free
oxprenolate sodium: not duty-free.

(5) where no CAS RN is indicated for a product of Annex 3 or Annex 6 (number 0-00-0), the international non-proprietary name (INN) or listed chemical name is sufficient for duty-free treatment.

D. Standard rate of duty

1. Customs duty shall be charged at the flat rate of 2,5 % ad valorem on goods:

- contained in consignments sent by one private individual to another, or
- contained in travellers' personal luggage,

provided that such importations are not of a commercial nature.

This flat-rate 2,5 % customs duty shall apply, provided that the intrinsic value of the goods subject to import duty does not exceed € 700 per consignment or per traveller.

Such flat-rate assessment shall not apply to goods for which the rate of duty in the schedule of customs duties is 'free' and to goods of Chapter 24 which are contained in a consignment or in travellers' personal luggage in amounts exceeding those laid down in Article 27 or pursuant to Article 41 of Council Regulation (EC) No 1186/2009 of 16 November 2009 setting up a Community system of reliefs from customs duty ⁽¹⁾.

2. Importations shall be treated as not being of a commercial nature if:

(a) in the case of goods contained in consignments sent by one private individual to another, such consignments:

- are of an occasional nature,
- contain goods exclusively for the personal use of the consignee or his family, which do not by their nature or quantity reflect any commercial interest,
- are sent to the consignee by the consignor free of payment of any kind;

(b) in the case of goods contained in travellers' personal luggage, they:

- are of an occasional nature, and
- consist exclusively of goods for the personal use of the travellers or their families, or of goods intended as presents; the nature and quantity of such goods must not be such as might indicate that they are being imported for commercial reasons.

3. The flat rate of customs duty shall not apply to goods imported under the conditions set out in paragraphs 1 and 2 if the person entitled has, before the said flat rate is applied to them, requested that they be subject to the customs duties appropriate to them. All the goods making up the consignment shall then be subject to the import duties which are appropriate to them, without prejudice to the duty-free admission provided for pursuant to Articles 25 to 27 and 41 of Regulation (EC) No 1186/2009.

For the purposes of the first subparagraph, import duties shall mean both customs duties and charges having equivalent effect and other import charges provided for under the common agricultural policy or under specific arrangements applicable to certain goods resulting from the processing of agricultural products.

4. Non-participating Member States may round off the amount in national currencies resulting from the conversion of the sum of € 700.

5. Non-participating Member States may maintain unchanged the equivalent in national currency of the sum of € 700 if, at the time of the annual adjustment provided for in Article 53 of Regulation (EU) No 952/2013 the conversion of this amount, before the rounding off provided for in paragraph 4, results in a change of less than 5 % in the equivalent in national currency, or in a reduction thereof.

(1) OJ L 324, 10.12.2009, p. 23

E. Containers and packing materials

The following provisions are applicable to the containers and packing materials referred to in general interpretative rule 5(a) and (b) and put into free circulation at the same time as the goods which they contain or with which they are presented.

1. When the containers and packing materials are classified with the goods in accordance with the provisions of general interpretative rule 5, they shall be:
 - (a) chargeable at the same rate of customs duty as the goods:
 - where such goods are subject to an ad valorem customs duty, or
 - where they are to be included in the dutiable weight of the goods;
 - (b) admitted free of customs duties:
 - where the goods are free of customs duty, or
 - where the goods are dutiable otherwise than by reference to weight or value, or
 - where the weight of the containers and packing materials is not to be included in the dutiable weight of the goods.
2. Where containers and packing materials covered by the provisions of paragraph 1(a) and (b) contain or are presented with goods of several different tariff descriptions, the weight and value of the containers and packing materials shall, for the purpose of determining their dutiable weight or value, be apportioned among all the goods contained, in proportion to the weight or value of those goods.

F. Favourable tariff treatment by reason of the nature of the goods

1. Under certain conditions, favourable tariff treatment by reason of the nature of the goods is provided for:
 - goods unfit for consumption,
 - seeds,
 - bolting cloth, not made up,
 - certain types of fresh table grapes, tobacco and nitrate.

These goods are covered by subheadings ⁽¹⁾ with a footnote reference in the following terms: 'Entry under this subheading is subject to the conditions laid down in section II, paragraph F, of the preliminary provisions.' or 'This favourable tariff treatment is subject to compliance with the formalities and conditions laid down in section II, paragraph F, of the preliminary provisions'.

2. Goods unfit for consumption for which favourable tariff treatment is granted by reason of their nature are listed in Annex 8 by reference to the heading under which they are classified together with the description and the quantities of the denaturants used. Such goods are presumed to be unfit for consumption when the goods to be denatured and the denaturants are homogeneously mixed and their separation is economically not viable.
3. The goods listed below shall be classified in the appropriate headings for seed or for sowing, provided that the goods comply with the relevant provisions of the European Union:
